
TABLE OF CONTENTS

Zusammenfassung	13
Summary	17
About Expectations	19
1 A Question of Definition	19
1.1 Cognition	20
1.2 Expectations	21
2 Expectations and Stimulus Processing.....	25
2.1 The Placebo Effect	25
2.2 Expectations, Context, and Face Processing	34
2.3 Expectations and Perception – Further Examples.....	36
3 Expectations and Higher Cognitive Functions.....	40
3.1 Stereotype Threat	40
3.2 Self-Efficacy	46
4 Expectations in this Thesis	48

Gender, Pain, and Expectations 51

5	General Approach and Core Results.....	52
6	fMRI Experiment	55
7	Naloxone Experiment	58
8	Cortisol Experiment.....	61
9	Revisiting the fMRI Experiment.....	64
10	Supplementary Methods.....	67
10.1	Participants.....	67
10.2	Experimental Paradigm	69
10.3	Behavioural Data Analysis	81
10.4	fMRI Parameters and Data Analysis.....	83
10.5	Testosterone Analysis.....	85
10.6	Cortisol Analysis.....	86
11	Supplementary Figures and Tables	87

Between Pain and Math 93

12	Introduction	94
13	Methods.....	97
13.1	Participants.....	97
13.2	Experimental Procedure	97
14	Results	100
15	Conclusions	103

Expectations and Cognitive Performance 105

16	General Introduction	106
17	Main Experiment: Methods	110
17.1	Participants.....	110
17.2	Expectancy Manipulation	110
17.3	Testing Procedure.....	111
17.4	Behavioural Data Analysis	116
18	Main Experiment: Results	117
19	Follow-up Experiments.....	121
19.1	Follow-up Experiment I: Methods.....	121
19.2	Follow-up Experiment I: Results.....	124
19.3	Follow-up Experiment II: Methods	126
19.4	Follow-up Experiment II: Results.....	130
20	General Discussion.....	132

The Bigger Picture 137

21	Nonverbal Expectancies in Non-Human Animals: The Winner/Loser Effect	140
22	So, Who Expects What?	145
23	Expectancy Effects in the Context of Experimental Design: Avoiding Pitfalls	147
24	Re-evaluating the Transmitter Systems Involved in Expectancy Effects ...	149

25 Implications for Stereotype Threat.....	153
26 Concluding Remarks.....	155
References.....	157
